

GRZEGORZ MOZER

Toronto, Canada M6G 3Y9 | +1 647 833 8068 | mozer.grzegorz@yahoo.com

Professional Summary

Diligent Senior Software Developer with background in developing complex software solutions. Proven track record in leading projects from inception to completion, ensuring high-quality deliverables. Demonstrated expertise in problem-solving and effective communication within cross-functional teams.

Work History

Senior Software Developer

12/2024 to Current

Heineken (Heineken Global Shared Services) – Remote

- Delivered high-quality code on time by effectively managing project timelines and prioritizing tasks accordingly.
- Collaborated with cross-functional teams to integrate software components seamlessly into existing systems.
- Contributed to the architecture design of complex software systems, ensuring scalability and maintainability.
- Trained new developers and programmers on company standards for design and review.
- Stayed current with industry trends, applying emerging technologies to enhance product offerings when appropriate.
- Conducted comprehensive code reviews, ensuring adherence to established coding standards and improving overall code quality.
- Championed initiatives aimed at improving internal processes and overall team productivity, ultimately leading to significant reductions in project completion times.

Senior Software Developer

11/2023 to 12/2024

Rangle.io – Toronto, ON

- Delivered high-quality code on time by effectively managing project timelines and prioritizing tasks accordingly.
- Lead team in developing scalable web applications, boosting performance and user satisfaction.
- Implemented robust solutions, reducing system downtime and enhancing reliability.
- Mentor junior developers, fostering skill growth and knowledge sharing.
- Analyze complex problems, devising efficient algorithms and optimizing code.
- Collaborated with cross-functional teams to integrate software components seamlessly into

existing systems.

Senior Software Developer

01/2023 to 11/2023

CGI (TSX: GIB.A) – Toronto, ON

- Led a team to develop scalable software, enhancing system performance by 23%
- Collaborated with cross-functional teams to integrate new features, improving user satisfaction
- Implemented code reviews and best practices, reducing bugs and increasing code quality
- Analyzed complex requirements to design efficient algorithms, boosting application speed
- Mentored junior developers, fostering a dynamic and productive team environment

Software Developer

08/2021 to 01/2023

CGI (TSX: GIB.A) – Toronto, ON

- Developed and maintained web applications, enhancing user experience and cutting load times by 40%.
- Collaborated with cross-functional teams to deliver high-quality software solutions on schedule.
- Implemented automated testing, reducing bugs by 35% and accelerating release cycles.
- Analyzed system performance, resolving bottlenecks to boost efficiency.
- Mentored junior developers, fostering a collaborative and innovative team environment.

Software Developer - Web

01/2021 to 08/2021

DCM (TSX: DCM) – Mississauga, ON

- Developed and maintained web applications, enhancing user experience and functionality.
- Collaborated with cross-functional teams to deliver projects on time, improving team efficiency.
- Analyzed user feedback to optimize features, increasing user satisfaction.
- Resolved technical issues swiftly, minimizing downtime and maintaining service reliability.
- Developed innovative web applications using React and ChartJS, improving system efficiency.

Software Developer

12/2018 to 01/2021

Quadient, DCM (TSX: DCM) – Mississauga, ON

- Developed Quadient software, enhancing customer communication workflows and digital transformation.
- Streamlined development processes, reducing project delivery times and boosting efficiency.
- Collaborated with cross-functional teams for seamless Quadient integration and client communication.
- Optimized data processing for projects with over 100k records, ensuring accuracy and speed.
- Led over 30 projects with Quadient Inspire Designer and Interactive, providing expert guidance.

Education

Bachelor of Engineering (BE): computer science and econometrics

03/2009

Uczelnia Warszawska Im. Marii Skłodowskiej-Curie - Warsaw, Poland

Skills

Problem-solving approach

Guiding team members

Experience with ReactJS

Rest APIs

GraphQL

Cross-functional Collaboration

Testing

Effective team leadership

Experienced with TypeScript development

Skilled in developing applications with NextJS

React Query

PostgreSQL

Code Reviews
